

CHAITANYA SANGOLE

Senior Laravel Developer | Backend Architect | API & Systems Lead

Pune, Maharashtra | +91-8149750231 | csjob1994@gmail.com | linkedin.com/in/chaitanya-sangole-7b5249146

PROFESSIONAL SUMMARY

Senior Laravel / PHP Developer and de facto technical lead with 6+ years architecting secure, scalable backend systems and RESTful APIs across 20+ production projects — spanning US and Germany-based platforms and large-scale government systems for the Ministry of Education, Goa Board, Mumbai Police, YASHADA, and Maharashtra Land Records. Owns backend architecture end-to-end: API design, RBAC and audit systems, database optimization, and third-party/payment integrations. Regularly leads feature delivery, mentors junior developers, and interfaces directly with client stakeholders to translate business requirements into production systems. Seeking a senior backend / technical lead role where deep Laravel expertise and government/enterprise-scale delivery experience can drive product architecture decisions.

CORE SKILLS

- Languages & Frameworks: PHP, Laravel, Yii, Angular, JavaScript, HTML5, CSS3
- APIs & Auth: RESTful API architecture & versioning, OAuth2 (Google/Facebook), JWT, Laravel Sanctum/Passport, OTP auth, RBAC design
- System Design: Role-based workflow engines, audit-trail systems, multi-language localization, caching strategy, queue-based async processing
- Integrations: Razorpay, CCAvenue, PayPal, Zoho Books, Firebase Cloud Messaging, SMS gateways, third-party email APIs
- Data & Infra: MySQL (schema design, query & index optimization), Redis, AWS S3, Laravel Queues, cron-based schedulers
- Leadership: Code review, mentoring junior developers, client requirement gathering, cross-functional delivery ownership

PROFESSIONAL EXPERIENCE

Senior PHP Developer — Technical Contributor

Oct 2025 – Present

Edhaas Digisoft Pvt. Ltd., Pune

- Improved system performance ~30% through backend refactoring and MySQL query/index optimization across high-traffic modules.
- Led RESTful API integration initiatives that cut data-exchange latency ~25%, improving cross-platform reliability.
- Partnered with cross-functional product and design teams to ship new features, contributing to a ~20% increase in user engagement.
- Reviewed and mentored junior developers, raising code quality and reducing production defects.

Senior Application Developer

May 2024 – Feb 2025

EncureIT Systems, Pune

- Owned backend modules and secure RESTful APIs for government education and law-enforcement platforms (Goa Board, Ministry of Education, Mumbai Police).
- Acted as primary technical point of contact on-site with clients — gathering requirements, resolving production issues, and translating business needs into system design.
- Architected RBAC, audit-trail logging, and secure authentication to protect sensitive government and student data at scale.
- Directed junior developers and partnered with QA to ensure reliable, on-time releases on multi-stakeholder government timelines.

Senior PHP Developer

Oct 2023 – Feb 2024

Sanpri Technologies

- Delivered PHP/Yii application features to spec with consistent, high-quality, on-time releases.
- Collaborated closely with QA to identify and resolve issues, improving release stability.

PHP & Laravel Developer

Apr 2021 – Oct 2023

Excelsior Technologies

- Built full-stack features and RESTful APIs in Laravel across multiple concurrent client engagements, including US- and Germany-based platforms.
- Integrated payment gateways (Razorpay, CCAvenue, PayPal) and third-party services (Zoho Books, Firebase FCM, OAuth2) into production systems.
- Reviewed junior developers' code, enforcing coding standards and reducing defect rates.

PHP (Yii / Laravel) Developer

Sep 2019 – Dec 2020

Adneysoft

- Built custom PHP/Yii modules that improved application performance ~30%.
- Resolved 100+ technical issues within SLA across cross-functional teams.
- Contributed to code reviews that reduced bugs ~20% and raised overall code quality.

KEY PROJECTS

ITMS — Question Bank Management System | Goa Board (Govt.)

- Architected the Laravel REST API backend (versioned APIs, Sanctum token auth with OTP login and session expiry) for a board-wide platform used statewide by teachers and moderators.
- Designed a role-based question workflow (Teacher → Moderator → Admin) with full lifecycle tracking and role-specific dashboards.
- Modeled NCF-aligned academic master data — cognitive domains, competencies, curricular goals, difficulty levels — plus RBAC, audit logging, and notifications.

QPGS — Question Paper Generation System | Goa Board (Govt.)

- Extended QBMS to auto-generate multi-language, multi-subject question papers from a verified question bank via configurable API rules.

SQAAP | Ministry of Education, Govt. of India

- Built assessment and admin modules for a national school-quality evaluation platform, supporting standardized data capture, scoring, and reporting.

Mumbai Police — Evidence (Muddemal) Management System

- Designed RESTful APIs for evidence transactions and warehouse hierarchy, plus secure auth and a real-time evidence-movement dashboard.

MooveGuru (USA) | Customer & Advertiser Management Platform

- Built address-change email-automation workflows and cron-based scheduled jobs for data sync and reporting.

Additional: Univia (Agritech), Parler (Business Suite), Raasa (E-Commerce), Eduglade (E-Learning), Jhumru (Mobile Social), YASHADA ERP, Maharashtra Land Records, STEM HRMS, News CRM, Indian Cloud Kitchen — Laravel APIs, payment gateways, RBAC, push notifications, and multi-currency/multi-language systems.

EDUCATION

- MCA — University Department of Management Science, Chhatrapati Sambhajinagar (Aurangabad) — 2015–2018
- BCA — Tulsi College of Computer Science and I.T., Beed — 2012–2015
